We are here for you

- with passion for our industry
- with solutions for your concerns
- with expertise for your questions
- with experience for your success
- with quality for your requirements
- with reliability for your satisfaction
- with time for your personal consultation
- For you

We have set ourselves the goal of acting in harmony with our environment in all our activities and thus make a contribution to protecting and preserving it.

This is not limited to the manufacture and storage of our products:

We avoid unnecessary waste and have been able to reduce of packaging material by almost 90%.

Of course we are BIO-certified.

We buy our goods - as far as possible - directly from the producer

We are the first company in Germany to ship goods completely plastic-free.

We use the electricity from the photovoltaic system on our company building

In addition, we are constantly working on small and major changes to become more environmentally friendly.

We are at your disposal at any time

By e-mail | by telephone | via your purchasing portal
